# Service Terms and Conditions

## Service Request Terms

14.1 These terms and conditions apply to all service work (Including but not limited to In-Warranty, Out-of-Warranty and repairs covered under New Zealand Consumer Law) undertaken on behalf of the client by iStore New Zealand Limited or its employees, contractors or related companies.

14.2 A minimum "diagnostic fee" applies to all requests for diagnosis of a device's problems unless covered by Apple's manufacturing warranty, variable warranty or other kind of coverage (final coverage is to be determined by Apple). In the event that a diagnostic is performed by iStore but no repair takes place, the minimum diagnostic fee is still applicable.

14.3 iStore will provide an estimate of the work that is required to resolve the problem. However, in order to avoid ordering and charging the client for unnecessary replacement parts, if there is a problem that may have arisen from more than one part being faulty, iStore will first order the part most likely to be causing the problem (if applicable, as specified in Apple's Service Procedures) and will only include this part and the associated labour in our estimate.

14.4 If changing the first part does not resolve the problem, additional parts may need to be ordered. The client will be notified of this situation prior to any parts being ordered or any further work being done if ordering more parts may result in further charges to the client.

14.5 Service parts or products are new or equivalent to new in performance and reliability. All replacement products or part(s) fitted for all service jobs are warranted to be free from defects for ninety (90) days from the date of service or for the remaining period of your original product coverage, whichever ever is longer.

14.6 Software related issues are not covered under Apple Warranty and service charges will apply. iStore will contact the client in the event of a software issue being diagnosed with a quote for repair.

14.7 If during the course of repair an unrelated part fails due to normal wear and tear, any damage or any pre existing condition (such as a dry solder) iStore New Zealand Limited is not liable for such damage and/or failure(s). iStore will provide a further estimate of the cost to replace the additional parts, including the cost of labour to do so.

14.8 iStore holds the right to not proceed with any work until written confirmation has been obtained by the client. Whether this be in the form of a signed quote (signed in-store) or written acceptance via email.

14.9 iStore holds the right to refuse service for devices that show signs of the following:

(a) Un-authorized modification, tampering or repair. All devices must contain OEM parts; or

(b) Organic material or be in any other state that may pose a health and safety risk to iStore, its employees and other customers.

14.10 If a device is found to have non-OEM parts, modifications or contain organic material as depicted in 14.9 the client accepts that iStore may charge a diagnostic fee to cover time spent inspecting device.

14.11 iStore and its agents will not be responsible for any damage to a product that occurs during the repair or diagnostic process that is a result of any unauthorised modifications or repairs or replacements not performed by Apple or an AASP. If damage results, iStore will seek your authorisation for any additional costs for completing service even if the product is covered by warranty or AppleCare. If you decline authorisation, iStore may return your product un-repaired in the damaged condition without any responsibility.

14.12 All service work is undertaken with the assumption that the appropriate backups have been made. If this is not the case, the client must let iStore know during the book-in process. iStore is not responsible for any data loss. If data recovery is requested by the client, service fees will apply regardless of warranty status. In some cases data recovery will not be possible due to either a hardware failure or the repair strategy provided by Apple.

14.13 The client authorises iStore to run diagnostics on the client's device including Apple diagnostics and acknowledges that anonymous system information concerning the device will be sent to Apple. Any service work performed may also be subject to Apple's Terms and Conditions which can be found via <http://apple.com/nz/legal>.

14.14 Before a device running iOS can be diagnosed the device must be updated and restored to the most recent release of iOS. Under no circumstances is iStore able to service an iOS device without updating it. iStore is unable to sign older releases of iOS. In order to correctly diagnose Mac hardware issues a software update may be required. The client authorises iStore to perform all software updates and/or restores once the device is booked in for service without prior notification.

14.15 iStore may hold a client's device until such a time as all service charges and other outstanding invoices have been paid in full.

14.16 If a client's device or devices have not been collected from iStore after communication and advice to do so for over three (3) months, iStore holds the right to dispose of client's device(s).

14.17 All turn around times quoted by any agents, employees, franchises or subcontractors of iStore New Zealand Limited are estimations and are subject to change at any time without notice.

14.18 All service work is also subject to sections 1 through 13 of iStore New Zealand Limited's Terms of Trade which can be found via [www.istorenz.com/legal](http://www.istorenz.com/legal).

## Out of Warranty Service Requests

15.1 Before commencing with a diagnostic for a device that is outside of it's Apple limited Warranty or AppleCare Protection Plan coverage, iStore will advise the client that faults could occur due to a number of issues. iStore will follow Apple's Service guidelines based on iStore's diagnosis of a particular fault.

15.2 Faults can not always be absolutely determined without attempting to replace parts that may or may not be faulty.

15.3 In respect to 15.1 and 15.2, the client acknowledges that:

(a) There is no guarantee that the repair will result in the device being repaired;

(b) The client has been advised that iStore will attempt to repair the machine by replacing the part most likely to have failed in accordance with the Apple Service guidelines and/or at the discretion of the iStore Service Team;

(c) If the replacement part does not repair the device, the client will still be responsible for paying for the part and the associated labour to replace the part;

(d) In the event that the replacement of a part does not repair the machine, iStore will seek the Client's permission before replacing any additional parts;

(e) iStore shall not be held liable and the Client releases iStore from any liability in respect to the hardware or any parts thereof failing or being damaged as a result of performing the labour at the Client's request;

(f) iStore provides no express or implied guarantee of Warranty in respect of the labour whatsoever;

(g) The client shall have no right of redress against iStore as a result of the labour being performed; and

(h) The client agrees to pay a stipulated Diagnostic Fee upon the service request. This is non-refundable but will be put towards the final cost of quoted repair if a quote for repair is accepted.

15.4 All Out-Of-Warranty service work is also subject to iStore New Zealand Limited's Terms of Trade and Service Request Terms.
